

TEXAS TECH UNIVERSITY

PROGRAM: B.S. MATHEMATICS

Program Focus
Recommended Major:
Mathematics

Duration:
4-5 years

Level of study:
**Undergraduate
Degrees**

Description:

Mathematics is a career that required mental preparation. This major develops professional problem solvers who are comfortable with reasoning with things that are not obvious at first glance. It prepares leaders to be efficient with their reasoning and to understand large, complex situations that require an analytical perspective.

Texas Tech University is a leading research university providing a world-class education. At our Costa Rica campus, Texas Tech proudly offers six bachelor's programs, each in a high-demand field, delivered 100% in English, and with a unique campus experience. Students here, called "Red Raiders," embrace the traditions of Texas Tech, a tier-one research U.S. university that is nearly one hundred years old.

Students can do the application process to TTU-CR through our webpage: costarica.ttu.edu
