

PROGRAM: **BACHELOR OF MICROBIOLOGY AND CLINICAL CHEMISTRY**

Program Focus
Recommended Major:
Microbiology

Duration:
5 years
(10 semesters)

Level of study:
**Bachelor and
License degree**

Description:

Our study program is made up of ten semesters in which the academic offer is carefully distributed in such a way that students can receive theoretical hours, in addition to practical hours in the laboratories, this in each of the blocks. Also, from the VII to the IV semester, our students carry out supervised practices in different public and private laboratories.

The program is designed so that our graduates acquire the knowledge and experience necessary to perform in different fields (clinical, industrial, pharmaceutical, veterinary, cosmetic, food, among others); Additionally, in their last semester of study, young people take an internship course at the C.C.S.S (Social Security Hospitals) where they reaffirm their clinical and practical knowledge in their future workplaces.
