

COSTA RICA GLOBAL LEARNING PROGRAMS

PROGRAM: **COSTA RICAN COMMUNITY AND PUBLIC HEALTH**

Program Focus
Recommended Major:
Health sciences, nursing,
pre-medicine, medicine,
pre-nursing, kinesiology

Duration:
**2 weeks
(certificate of
participation)
or 4 weeks
(3 credit hours
and/or certificate
of participation)**

Level of study:
**Associate, Bachelor,
Master, or MD level**

Description:

This two- to four-week program gives participants to opportunity to learn about the public and community health options and initiatives in Costa Rica.

Students will rotate through a number of health care facilities in rural and urban locations which will allow them to develop an understanding of the healthcare system and community health initiatives in Costa Rica.

Students will also have the opportunity to organize a public health activity for a community, working with either a local government or nonprofit organization.
