

COSTA RICA GLOBAL LEARNING PROGRAMS

PROGRAM: **MEDICAL SPANISH IMMERSION PROGRAM**

Program Focus
Recommended Major:

Health sciences, nursing,
pre-medicine, medicine,
pre-nursing, kinesiology

Duration:
**4 weeks,
3 credit hours**

Level of study:
**Associate, Bachelor,
Master, or MD level**

Description:

During this four-week program, students will be immersed in the essential Spanish vocabulary for health care professionals through multiple ways including:

- Intensive, face-to-face written and oral Spanish instruction with native speakers.
- Simulation activities conducted entirely in Spanish for students to practice their communication and listening skills.
- Guest lectures and tours of public and private health clinics and hospitals for students to develop an understanding of Costa Rica's healthcare system.
- Culture and tourism activities for students to appreciate and explore Costa Rica while practicing Spanish.

Additionally, participants who are interested and with relevant experience will also have the opportunity to observe and assist in nonprofit and private clinics.
