

FUNDEPOS UNIVERSITY

PROGRAM: ENVIRONMENTAL AWARENESS AND SUSTAINABLE DEVELOPMENT

Program Focus
Recommended Major:
Natural or social sciences

Duration:
2-4 weeks

Level of study:
Short course

Discipline:
Environmental Science

Language:
English

Description:

The course will be based on an analysis of the 17 Sustainable Development Goals (SDGs) of the UN 2030 Agenda. Emphasis will be placed on those that deal directly with the conservation of natural resources and their relationship to sustainable livelihoods. It includes an analysis of innovative options, clean technologies and natural solutions for climate change adaptation needed to improve the state of natural resources and the quality of life of humans.
