

UNIVERSIDAD INTERNACIONAL SAN ISIDRO LABRADOR

PROGRAM: TWO-WEEK PROGRAMS

Program Focus
Recommended Major:
Get to know Costa Rica
and learn Spanish

Duration:
2 weeks

Level of study:
University

Discipline:
Languages

Language:
English / Spanish

Description:

We offer four programs:

Sustainability & Environment Program

This program takes you to know the great wealth that Costa Rica has in biodiversity, sustainability and environment programs, while you learn Spanish. The program will be accompanied by some vacation tours and classes on sustainability topics.

History & Anthropology Program

You will visit historical and archaeological places where you will learn about the origins of our ancestors. In this program you can take a tour of the historical places and emblematic places of Costa Rica, and learn more about the past to the present.

Professional Internship Program for Teachers In Education

This program will lead you to have real practices in public and private educational centers in Costa Rica, as well as knowledge of the academic and administrative educational structure of the country. You will also take tours of the country.

Adventure & Extreme Sports

This program will lead you to have real practices in public and private educational centers in Costa Rica, as well as knowledge of the academic and administrative educational structure of the country. You will also take tours of the country.
