## LCI Education

At Universidad LCI Veritas, our students explore the vibrant culture and stunning landscapes of Costa Rica through a unique academic lens that prioritizes the integration of the Sustainable Development Goals (SDGs) into our curriculum. As a leading institution committed to educational excellence and holistic development, we offer comprehensive support services tailored for international Study Abroad students. Our competency-based teaching model highlights experiential learning and caters to different learning styles, ensuring every student thrives. Our support encompasses student affairs, mental health resources, academic advising, administrative assistance, and program logistics. We prioritize sustainability, justice, equity, diversity, and inclusion, ensuring that all students receive a world-class education in an environment that values and practices these principles. We invite educational institutions to partner with us to offer your students a transformative educational experience that extends beyond the classroom.

**Areas of interest:** Erasmus+, short-term programmes, student exchange and study abroad, intercultural competencies and languages, microcredentials, diversity and equity inclusion, climate change and environmental sustainability.

TEC offers 23-degree programs to enroll for an exchange semester, students could register lectures from different schools according to their areas of interest while improving Spanish. Through the time at the university you will combine theory, access to technology, training, counseling an integration to our culture as the research groups, sports, artistic, festivals and others contribute to their well-being and the learning process.

In addition, TEC offers International Programs, during 1- or 2-weeks students, academics and administrative staff will be able to learn about Costa Rica’s environmental policies and its application in our University’s Campus and the social outreach of our academia in environmental subjects looking forward towards the development of green ethics in society. The participants will also experience firsthand practical application of such green policies through educational environmental tours, field trips and recreational visits.

**Areas of interest:** Faculty and student mobility, research and other.
