ILISA

At ILISA Educational Experiences, we are known for our comprehensive approach to designing customized study abroad programs tailored to the specific goals and interests of colleges, universities, and faculty. With programs starting from just one week, we offer the flexibility to adapt to a wide range of academic calendars, learning outcomes, and institutional needs. Our goal is to create meaningful international experiences that foster student learning, engagement, and personal growth.

Our programs go beyond language learning and include a wide variety of academic, cultural, and experiential opportunities. These may include Spanish immersion with homestays and excursions, service-learning projects, faculty-led academic programs, internships, and educational experiences focused on areas such as sustainability, conservation, business, public health, social work, culture, anthropology, and education. We also offer programs conducted in English, as well as the opportunity to earn academic credit through our school of record, St. Petersburg College in Florida.

To ensure a smooth and enriching experience, we provide comprehensive support in areas such as accommodations, transportation, cultural activities, academic coordination, and on-site logistics for all participants.

Programs: Faculty-Led, Short-Term, Customized Experiences, Spanish Immersion, Teaching Abroad, Sustainability and Culture, Business in Latin America.

UNIVERSIDAD ESTATAL A DISTANCIA (UNED)

The Universidad Estatal a Distancia (UNED) is a leading public university in Costa Rica, recognized for expanding access to higher education through innovative, flexible, and inclusive learning models.
With a nationwide presence through 41 campuses and a community of more than 40,000 students, UNED is a key driver of talent development, offering a broad academic portfolio supported by advanced educational technologies and a strong commitment to quality.

UNED is distinguished by its commitment to inclusion, equity, and sustainable development. Through specialized programs, the university provides educational opportunities to underserved populations, indigenous communities, incarcerated individuals, persons with disabilities, and students in rural areas, contributing to social mobility and regional development.

At the international level, UNED actively participates in academic cooperation, research, and innovation projects with universities and organizations across Europe, Latin America, and other regions. Its involvement in initiatives such as Erasmus+, artificial intelligence projects, sustainable development, and inclusive education positions UNED as a strategic partner for international collaborations, mobility programs, applied research, and capacity-building initiatives.

Programs: Student and faculty mobility programs, short-term academic courses, cultural and language immersion experiences, internships, applied learning projects, research partnerships, distance education and educational innovation initiatives, as well as community-based and territorial development experiences across its nationwide network of campuses.

INTERCULTURA

At Intercultura Costa Rica, Spanish comes to life through our immersive programs. Our offering combines dynamic, interactive classes with local culture, homestays with local families, daily activities, and community-based and volunteer experiences, creating an experience that goes far beyond the classroom. Whether enjoying the sunshine at our beachfront campus in Playa Sámara or immersing themselves in Latin American urban life in Heredia, each of our locations offers a unique way to discover the Spanish language and Costa Rican culture.

Our approach also embraces intercultural learning and empowerment through diversity, guided by the principles of equality, inclusion, and cooperation. We believe that learning a language is also an opportunity to build bridges between cultures. Through our immersion programs, we share Costa Rica's rich cultural, social, and natural heritage with the world while bringing the world closer to our communities, fostering an authentic exchange of ideas, perspectives, and experiences.

We strive to create a positive and lasting impact on the lives of our students, staff, host families, suppliers, and communities by fostering mutual respect, empathy, and intercultural understanding. Through our commitment to an integrated educational approach that combines language learning with cultural immersion, we aim to strengthen global awareness, social responsibility, and our participants' ability to make a positive contribution to an increasingly interconnected world.

AREAS OF INTEREST: Faculty-led groups, Spanish Immersion semester & summer study abroad programs, language study, and cultural immersion.
